Question on possible new routes

I was told that a route had been removed for consideration, but I do not see it in the new maps. Can you possibly help clear this up for me.

In the master tristate line, looking at the Preliminary Alternative Corridor route, is section K, N, O still being considered. Why do you need two routes to hook up the calumet to san luis stations?

I am a resident right by K,N in La Veta in the Tres Valles Ranch.

Thanks
